

# Welcome to a Virtual World with the Macaulay Virtual Landscape Theatre

## What is it?

The Macaulay Virtual Landscape Theatre uses a large curved screen and some crafty computer modelling to transport you into landscapes of the past, present and future.

## What is it for?

In this everchanging world, the theatre gives you the opportunity to experience landscapes by moving around the virtual world and providing feedback on what you see.

## What kind of changes?

On your journey you can view the effects of the following on the landscape:

- Changes in woodlands and vegetation
- Changes in farm management practice
- Wind farm developments
- Changes in the layout and design of parks
- Urban expansion
