

SEMINAR SERIES

1130 HOURS MONDAY 14TH MARCH 2011

ROOM G08, CRUICKSHANK BUILDING, ABERDEEN
UNIVERSITY

We would like to welcome

Miss Jenny Farmer
University of Aberdeen

'The impacts of land use change on CO₂ emissions from Indonesian peatlands'

The presentation will explain the REDD-ALERT project which Jenny is involved in and her field research in Indonesia measuring CO₂ emissions from intact peat swamp forests, logged forest and oil palm sites. She will then present her preliminary results and what this means for future emissions from forest conversion in Indonesia.

Everyone Welcome!!!

Should anyone wish to meet with Jenny, please contact Lesley
