

Aberdeen Entomological Club

The Aberdeen Entomological Club is a new forum for anyone interested in entomology. Aimed at professionals and non-professionals alike, everyone is welcome to attend the talks.

2010/11 Programme

1 Dec 2010 **Dr Andy Evans, SAC**

*Will climate change help the Harlequin ladybird (*Harmonia axyridis*) put the squeeze on native UK ladybirds?*

2 Feb 2011 **Dr Craig Macadam, Buglife**

Mayflies: a natural history

2 Mar 2011 **Dr Scott Johnston, SCRI**

Root feeders – from grazing to climate change

30 Mar 2011 **Athayde Tonhasca, SNH**

*Keeping stingless bees (*Meliponini*) in a tropical forest: livelihood and conservation*

Meetings are held at 4pm in Macaulay Suite A at the Macaulay Land Use Research Institute, Craigiebuckler, Aberdeen, AB15 8QH. For further information please contact Jenni Stockan j.stockan@macaulay.ac.uk or 01224 395239.
